Safe & Secure Supply Chain Services

Integrity In Motion. Your One Source Solution.

BRW has over 65 years of experience successfully supporting our military and commercial customers in North America with fully integrated trucking, logistics and warehousing services. When it comes to defense transportation, precision, safety, reliability, and security are absolute necessities. This is exactly what BRW delivers.

BRW is the 4th component! We are proud to support our troops around the world to ensure they always have what they need, exactly when they need it. BRW has consistently proven to be the premier choice for the defense supply chain in the Southeast, providing unparalleled expertise and dedication to our defense customers' demanding needs.

OUR MISSION IS TO DELIVER FOR YOU. BRW handles cargo in and out of some of the most complex and sensitive areas in North America. BRW is a fully approved Department of Defense (DOD) Transportation Service Provider (TSP) and complies with Military Freight Traffic Unified Rules Publication (MFTURP) and Defense Transportation Regulations (DTR) with over 65 years of experience in national regulatory compliance to ensure the safety and integrity of goods.

Secure Locations.

All of BRW's facilities are ISO 9001:2015 Certified, and we are dedicated to maintaining the confidentiality and protection of all assets, providing peace of mind that your supply chain is always safe, secure and delivered on time. BRW is also U.S. Customs Bonded for warehousing and trucking operations.

Defense Experience That Delivers.

From transportation and warehousing to distribution and logistics, we understand the complexities of the defense market and deliver results that exceed expectations of the industry and its suppliers.

Trucking

Our team of defense transportation experts, paired with our tools for shipment status, tracking and security provide the confidence of knowing the cargo is in experienced hands and will get to the destination on time. BRW adheres to stringent route planning and supervision protocols with safety always being the highest priority. BRW adheres to all government security standards.

BRW-owned asset units include over 150 sleeper and day cab tractors as well as over 600 van and open deck trailers, all equipped with GPS tracking.

BRW provides safe and secure the defense transportation services and the experts that always deliver, including:

- Long Distance Trucking
- Over the Road (OTR) Shipments
- Full Truck Load (FTL)
- Less than Truckload (LTL)
- Full Container Load (FCL)
- Less Than Container Load (LCL)
- Van and Open Deck Trailers
- Port Operations
- Small Equipment
- Expedited
- Oversized

Warehousing

BRW offers U.S. Customs Bonded warehousing and fulfillment centers throughout the Southeast totaling more than 1.7 million square feet. Our state-of-the-art facilities are ISO 9001:2015 Quality Management Certified and equipped with the latest Warehouse Management Systems. BRW's scalable services provide flexible solutions to your changing needs without compromising security, safety and efficiency. We ensure real-time visibility and control over all inventory and accommodate diverse storage needs while providing personalized support for proactive solutions, ensuring a seamless experience.

Logistics

Our defense logistics experts provide unparalleled knowledge and skills, ensuring meticulous planning and execution for your defense logistics requirements. Every BRW broker is a Certified Transportation Broker (CIATB) and our outsourced logistics services are ISO 9001:2015 Quality System Registered. We understand that speed to market is key, and provide the solutions for timely, expedited shipping that is safe and efficient. Our tools provide real-time tracking of shipments from the moment they leave until they reach their destination. With BRW logistics services, you receive:
